

Pronto for Students

Step 1: Download the Pronto app

Sign into Pronto using your school email address. You will receive an email with a verification code which you'll use to finalize the login process

As long as your teacher has enabled Pronto in your course, you'll be able to sign in and see your courses

Step 2: Use Pronto directly inside of Canvas

If you open Canvas from the web, you will see a Pronto link on the lefthand side of your course. Click on the link and you'll be able to chat within your course directly from inside of Canvas

Step 3: Say hi to your class

It's as simple as that. You now have access to the most powerful student chat tool in the world. You can chat, share files, enter live streaming sessions, create and assign tasks, and do it all in real-time
